INDEX.

A

Abendberg, the cretins of the, 545
Aberdeen, academic changes at, 344; University, the, 419
Abode of death, the, 245
Abscess of bone, on a case of; operation, cure; with clinical lecture by Mr. Quain, 121
——, spontaneous pelvic, 510; chronic mammary, ib.; renal, on a case of, 564
Abuses in the Medical Societies, 467
Accidental poisoning, 176
Accidents, to medical men while shooting, 309; by fire, 501; every-day, 546
Acne, the treatment of, 278, 324
Aconite, poisoning by, 344
Act to Amend the Medical Act, an, 196
Acton, Mr. W., the drains at Brighton, 522, 570
Adams, Mr. J., cases under the care of, 32, 61
——, Mr. Webster, on vaccination, 594
Addison, Dr., case under the care of, 384; the will of the late, 432
Address to students, 311
Adenocele, recurrence of, after three successive removals, 61
Adolphe, Mr. W., the Simplicity of the Creation, a new Theory of the Solar System (review), 516
Adulteration of Food and Drink Act, 275
—— c. the revenue and the consumer, 302
—— of wine in Paris, 305; of bread with alum, 627
Advertisement, introduction to, 127
Advertising, unprofessional, 178
Africa, by medical missionary to, 176; small mortality on the western coast of, 253; civilization in, 373
African campaign, the late, 50
Agricultural Museum in London, on the Benefits likely to accrue from the formation of an (review), 548
Air in the pericardium, 471
Alcoholism, chronic, and its effects on the nervous system, 237; with impending delirium tremens, treated by suspension of stimulants, ib.
Aldershott, proposed dispensary at, 536
Aldenson, Dr., cases under the care of, 238, 485
Aldridge, Dr. J. H., on a case of obstruction of the bowels from adhesion to the uterus, 262
Alfieri, vivisection at, 395, 419, 473
Algeria, the hospitals of, and the French Emperor, 256
Algiers for the consumptive, 366
Allarton's operation for stone in the bladder, on, 234
American diplomas, 319
Anæsthesia, local, new method of producing, 100; of almost the entire surface of the body, as well as partial loss of power, recurring several times, and traceable to the presence of effused products within the spinal canal upon the spinal nerves, 105
Anæsthetic aid in midwifery, on the value of, 613
Analysis of one thousand consecutive cases admitted into the Seamen's Hospital, "Dreadnought," 78
Analyst for the City of London, the, 423
Aneurism of the abdominal aorta, producing erosion of the vertebræ, 33; of the left femoral artery, treated by compression, consolidation within fifteen weeks, 326; of the aorta, with fatty degeneration of the heart, 594
Animal refuse, 347
Anlaced, poisoned, 483
Ankle-joint, reduction of compound dislocation of; death from tetanus on the eighth day after, 182
Annular laceration of the cervix uteri, 856
Annus medicus, 1860, the, 667
Antimonial poisoning, 219; another death from, 119
Anti-tobacco movement, the, 600
Anus, or a case of fissure of the, 123; imperforate, 539
Aorta, abdominal, aneurism of the, producing erosion of the vertebræ, 33; impervious, near the arch of the, in a new-born child, who lived five days, 225; valvular rupture of a dilated, with hæmorrhage into the pericardium, death, 883; aneurism of the, and fatty degeneration of the heart, fatal result, 594; dissecting aneurism of the, 634
Aortic aneurism, lancing an, 144
Aphthous stomatitis, 375
Apoplexy, 633; serous, case of, terminating fatally in thirty-five hours, on the sixth day of lying-in, 360
Apothecaries' Hall, pass-list of, 23, 48, 74, 100, 125, 175, 202, 225, 252, 278, 323, 346, 372, 398, 422, 447, 473, 499, 525, 552, 576, 599; regulations of, 286, 641
—— of Ireland, regulations of, 398
Appointments: Dr. C. Dresser, 23; Mr. Francis Mason, ib.; Dr. Robt. Lee, 78; Mr. Luther Holden, ib.; Mr. C. Roberts, 125; Mr. F. N. Manning, ib.; Mr. J. Croft, 152; Mr. W. Orange, 176; Mr. E. Toller, ib.; Rev. O. Robinson, ib.; Dr. W. Robinson Hill, 202; Mr. G. W. Lawrence, 225; Dr. Broadbent, ib.; Dr. Austie, 253; Mr. J. M. Bennett, 276; Mr. C. F. Maunder, 323; Mr. E. Lloyd, 396; Dr. R. Wollaston, 422; Mr. C. W. Brown, ib.; Dr. T. A. Carter, ib.; Mr. G. L. Cooper, 447; Dr. W. P. Kirkman, ib.; Mr. G. Grote, 473; Dr. H. T. L. Rooke, ib.; Mr. H. T. Scott, ib.; Mr. F. J. Bailey, ib.; Dr. F. Winslow, ib.; Mr. C. Heath, 499; Mr. Simpson, ib.; Mr. S. E. Procter, ib.; Dr. T. Barratt, ib.; Dr. E. B. Gray, 525; Dr. T. Chaplin, ib.; Dr. J. H. B. M'Leod, ib.; Dr. R. H. Courtenay, ib.; Mr. C. F. Keele, 552; Dr. J. J. Nason, ib.; Dr. E. Liveing, 576; Dr. Austie, ib.; Mr. W. G. Church, ib.; Mr. A. Winkfield, 600; Mr. J. Hutchinson, ib.; Dr. S. M'Mahon, ib.; Mr. A. J. Harrison, 626; Mr. J. P. Hemphill, ib.; Dr. H. Falk, 641
Arctic regions, 92
Arlidge, Dr. J. T., a case of hardship, 48
Armies in China, Syria, and Italy, health of the, 347
Army mortality returns, 128
—— medical warrant, violation of the, in China, 170
——, questions for candidates for assistant-surgeon in the, 190, 239; medical service, pass-list of the, 202; Medical Department, regulations of the, 286; vaccination in the, 221; medical officers, rambling words on, 222; Medical School, opening of the session, 336
Arnott, Dr. C. D., Mr. Maclise on the action of the heart, 146; on what is commonly called "rigidity of the os uteri," 294, 563
——, Dr. J., on a new method of reducing strangulated hernia, 546
Arsenical hanging-papers and paint, poisoning by, 518
Arsenic-eating, 25
Arsenic for the million, 592
Arteries, notes on atrophy and degeneration of the, 490
Arthritis, chronic rheumatic, 655
Ascarides, 603
Ascites originating without any recognised cause, and yielding to the employment of ionics, 6
Ashburner, Mr. J., the Poor-law Medical Reform Bill, 527
Asphyxia from a large ovarian tumour, 469
Assistant-surgeons in the army, examination of, 97
—— in the Indian army, questions at the competitive examination for the appointment of, 98
Association of Medical Officers of Asylums and Hospitals for the Insane, 49
—— of the Fellows and Licentiates of the King and Queen's College of Physicians, Ireland, officers for 1860-61, 396
Astro-Meteorological Society, an, 576
Atheromatous disease, 583, 585
Auricle, congenital absence of the, and malposition of the external meatus, 59
Australia, vital statistics of, 144
Australian Museum, the, 450
Autopsy, an, without permission, 126
Axilla, right, case of secretion of milk from the, 405
Ayres, Mr. T., professional etiquette, 376

B

Barot, Mr. W. G., on the occurrence of syphilis in childhood, 316
Bailey, Mr. E. L., papers by post, 603
Baker, Dr. W., on a case of double transverse hemiplegia, 183
Bakewell, Dr. R. H., hypodermic injection of morphia, 47
Baly, Dr., appointment to a seat in the Medical Council, 145
Bancroft, Dr. J., Dr. Braxton Hicks' method of version in placenta prævia, 123; the duration of pregnancy, 204
Barker v. Barker, Rolls Court, 598
Barlow, Rev. J., resignation of, as secretary of the Royal Institution, 473
Barnes, Dr. R., a clinical examination of the value of the operation of turning in labour obstructed through coarctation of the pelvic brim, 104; introductory lecture, delivered at the London Hospital, 325
Barracks and troops, the sanitary state of, 600
Basilar polypus, 215
Bateman, Mr. H., the inconveniences of a title, 578
Bath, adulteration of food at, 545
Beale, Dr. L. S., Dr. Todd's practice in acute diseases, 495
——, Mr. J. S., monstrosity and maternal impressions, 450
Beaney, Mr. J. G., Original Contributions to the Practice of Conservative Surgery (review), 191
Bedford, Dr. G. S., Clinical Lectures on the Diseases of Women and Children (review), 39
Bedouin Arabs, 176
Belfast Poor-law guardian, a, 416
—— branch of the Medical Benevolent Fund Society of Ireland, 500
Belfour, Mr. E., testimonial to, 499
Belize, yellow fever at, 535, 600
Benefactors, 176
Bennet, Dr. H., a winter at Mentone, 2
Bennett, Dr. J. Hughes, the Pathology and Treatment of Pulmonary Consumption, and the Local Medication of Pharyngeal, Bronchial, and Nasal Diseases mistaken for, and associated with, Phthisis (review), 413
Ben Rydding, analysis of the waters of, 491
Bernutz, M. G., Clinique Médicale sur les Maladies des Femmes (review), 615
Beyrout, sickness at, 419
Birkett, Mr., cases under the care of, 61, 461
Births, marriages, and deaths, 24, 50, 75, 101, 126, 177, 203, 227, 253, 346, 374, 399, 449, 474, 500, 525, 601, 627
Bishop, Dr. T., lunacy, 554
Bladder, stone in the, 330; inflammation of the neck of the, ib.; stone in the, the advantage of early attention to, 434; a bundle of fine hairs growing from the walls of the female, successful removal, 461; urinary, complete absence of the, with congenital malformation of the penis, &c., in a person who for seventy-three years passed as a female, 594
Blane prize medals, 500
Bleeding in acute lepra, good effects of, 188
Block-passing, the new, for the streets of London, 373
Blogg, Mr. W. G., poisoning by arsenical paper-hangings, 586
Blood-swelling, cranial, 567
Bloomsbury County Court: Scott v. Evans, 223
Bloxam, Dr., introductory address by, at the Government-place School of Medicine, 321
Boards of Health, local, 176
Bombay, the Forest Department of, and Dr. A Gibson, 601
Bone-setter, verdict of manslaughter against, 423
Bone-setting at Liverpool, 444, 467, 596
—— by the spirits, 546
Book about Doctors, a (review), 541
Books, &c., received, 348, 374, 449, 474, 500, 527
Bostock, Mr. J. G., congenital hydrocephalus, 222
Botanical gardens at Chelsea, the, 330
Botany, Popular Manual of (review), 565
Bownes, Dr. R. H., post-partum hæmorrhage, 148
Boyer, Professor, of Montreal, 276
Braidism in France, 74
Bread, cod-liver oil incorporated with, 220; adulteration of, with alum, 627
Bree, Dr. C. R., report of a case of myelitis and extensive spinal irritation, with paralysis of the left leg, cured by the administration of ergot of rye, and the external use of belladonna, 105
Brent, Mr. G. S., on fatal effects arising from enlargement of the thymus gland in children, 236
Brevity without obscurity, 549
Brighton Medical and Chirurgical Society, the, 147
——, the drains at, 522, 547, 566, 570
Bright's disease, on, considered in relation to its origin in the tubes themselves, or in the intertubular structures, 34
Brinton, Dr. W., introductory lecture on physiology, at St. Thomas's Hospital, 425, 456

British Association for the Advancement of Science, annual meeting held at Oxford, 19
—— Medical Association, 44, 74; at Torquay, 167; anniversary meeting of the, 173
Broadbent, Dr. W., what is the signification of the heart's throb? 121, 146
——, Mr. J., report of a case of recovery after apparent death from chloroform, 429
Brodie, Sir B., on special hospitals, 92; the health of, 195, 346; on tobacco-smoking, 243; and the Royal Society, 414
Bronchi, therapeutic use of aqueous vapour of medicinal solutions projected into the, 6
Bronchitis, chronic, and emphysema, 8
Bronzed skin, or Addison's disease, on a case of, 80; connected with disease of the supra-renal capsules, 112
Brown, Mr. I. B., clinical reports on some diseases of the rectum, &c., 28; report of eleven cases of vesico-vaginal fistula, 483, 507, 533
——, Mr. J. B., poisoning by aconite, 344
Brown-Séquard, Dr., on the diagnosis and treatment of the principal forms of paralysis of the lower extremities, 27, 77, 155, 229, 377, 451, 605
Bruce, Mr. J., sea-water for the Serpentine, 127
Bryan, Dr. E. L., the medical superintendentship of the Cambridge Lunatic Asylum, 221
Bryant, Mr., cases under the care of, 410, 487, 537, 633
Buchanan, Dr. G., mortality in Church-lane, St. Giles's, 420
Bucknill, Dr. J. C., the Medical Knowledge of Shakspeare (review), 9
Budd, Dr. G., cases under the care of, 338, 509
——, Dr. Wm., the views of, relating to the connexion between intestinal ulceration and the elimination of febrile poisons by internal eruptions, 249
Buez, Dr. A., du Cancer et de sa Curabilité (review), 464
Buffon before the French Academy of Sciences of Paris, 24
Bullock, Mr. L., a System of Instruction in Quantitative Chemical Analysis (review), 437
Butcher, Mr. R. G. H., Reports on Operative Surgery (review), 190

C

Cabs, street, fever in, 621, 636
Cæsarean section, case of, 629
Calculi, numerous, in the bladder of a female, on a case of, 57
Calculus vesicæ, report of cases of, operated on at the Norfolk and Norwich Hospital during 1858 and 1859, 104, 213; connexion of, with cancer of the bladder, 187
—— from the tonsil, spontaneously ejected, 487
Cambridge Lunatic Asylum, the medical superintendentship of, 191, 222; University regulations respecting the conferring of degrees, 281; medical degrees, 373
Camp and College, tobacco in, 468
Campin, Dr., on Diabetes (review), 564
Camps, the diseases of, 493
Cancer, colloid, of the upper lip, 8; epithelial, of the face, removal of both the superior and inferior maxillæ for, 31; another specific remedy for, 153; of the bladder, connexion of, with calculus, 187; du, et de sa Curabilité (review), 464; epithelial, invading the larynx and part of the pharynx, tracheotomy, death, 485; melanoid, 488; epithelial, of the tongue, successfully excised, 633
Candy, Mr. J., the treatment of acne, 324
Canton, Mr. E., cases under the care of, 58, 211, 237, 265; notes on atrophy and degeneration of the arteries, 460
Cape of Good Hope, sanitarium at the, 126, 348
Carcinoma of the penile organ, 212; requiring amputation, 9
Carey, Dr. E. F., spontaneous reduction of procidentia uteri which for fifteen months had remained irreducible, 250
Caries, acute, of the walls of the tympanic cavity, 34
Carlisle, the disinfection of the sewage at, 365
Carmarthenshire Infirmary, 153
Carotid, ligature of the, for suspected aneurism of the ophthalmic artery, 136; aneurism of the, 539
Carpenter, Dr., new regulations of the University of London for degrees in medicine, 470
Carson, Dr., his mode of slaughtering cattle, 315
——, Mr. R. M., the frauds on the Liverpool Northern Hospital, 228
Carter, Mr. J. B., treatment of retained placenta, 196
Case of hardship, a, 46
Cases of secrecy, 45
Catamenia, senile, 501, 527
Cataract, cases illustrating the use of forceps in extraction of, 112; soft, at an advanced age, 435; and insanity, 471
Catheter, a substitute for the, 316
Catheterism of the larynx in diphtheria, 39
Cattle show, the; human and veterinary hygiene, 617
Caudal prolongation, fleshy, in an infant, 411
Caution, a, 102
Cellulitis, pelvic, after a first pregnancy, 587
Census Acts, the new, 202
Centenarian, death of a, 447
Cerebral arteries, sequel to a case of embolon in the, 33
—— effusion, death from, 119
Certificates, in cases of lunacy, 218; of death in Scotland, 373
Cervix uteri, annular laceration of the, 586
Chadwick, Dr. C., the office of apothecary to the Leeds House of Recovery, 178
Chamberlaine, Mr. B. G., maltreatment of lunatics in workhouses, 197
Change of air essential, 226
Charing-cross Hospital, introductory lecture at, 329
Charitable institutions, medical aspects of, 68
Chavasse, Mr. F., post-partum hæmorrhage, 196
Chelsea, Brompton, and Belgrave Dispensary, 576
Chemical Analysis, Quantitative, a System of Instruction in (review), 437
—— Congress, International, 322
—— Physics, Elements of (review), 39
Chemistry, in its Relation to Physiology and Medicine (review), 616
Cheshire, a new magistrate for, 576
Chest-protector, a new, 445
Child, Dr. G. W., on the connexion between chorea and acute rheumatism, 260
Children, the Surgical Diseases of (review), 436
China, violation of the Army Medical Warrant in, 170; the commissariat in, 393; health of the troops in, 493; the army surgeons in, 567, 573
Chirurgical bequest, a, 447
Chloroform, death of a lunatic under, 117, 178; death from, 309; resuscitation from, 400; report of a case of recovery after apparent death from, 429; administration of, in deaf-mutism, 447; maximum and minimum doses of, 473
Cholera, the, 600; on, amongst the British troops at Scutari during Nov. 1855, 62; in Spain, 101, 153, 225; at Tangier, 202, 347; at Poona, 253; at Gibraltar, 314; in India, 473; in Morocco, 474
Cholera-morbus, notes on the epidemy of, at St. Jago in 1856, 587
Chorea, 37; and acute rheumatism, on the connexion between, 260; following rheumatism, cure, followed by fatal peritonitis, 432; for the third time, preceded on each occasion by a cutaneous eruption, 433; acute, simulating symptoms of cerebral disease, ib.; cured by arsenic and splints to the arms, 434
Chowne, Dr., introductory lecture by, at Charing-cross Hospital, 329
Chuckerbutty, Dr. S. G., on a case of abscess of the right kidney, 79
Church-lane a churchyard, 373
——, St. Giles's, mortality in, 420
Circular amputation of the thigh, 136
Civilization in Africa, 373
Clapham Medical Society, 152
Clark, Mr. Le Gros, case under the care of, 108
——, Sir James, retirement of, from the Medical Council, 144
Clavicle, dislocation of the sternal end of the, forwards, from injury, 265; comminuted and impacted fracture of the acromial end of the, 449
Cleanliness upon Sunday, 42
Clinical instruction, 371; in the metropolitan schools, 223, 248, 273

CLINICAL RECORDS.

Chronic bronchitis and emphysema, 8—Carcinoma of the penile organ, requiring amputation, ib.—Colloid cancer of the upper lip, ib. — Fracture of the femur and compound fracture of the leg and ankle in the same limb, ib. — Congenital absence of the auricle, and mal-position of the external meatus, 89 — Syphilitic sore-throat, treated by a gargle of bichloride of mercury, ib. — Necrosed cavity in the shaft of the humerus, ib.—Retention of urine from inflammatory stricture, 92 — Unusual case of stone, ib. — Rheumatic pericarditis, ib.—Preservation of the hip-joint by the removal of diseased bone, ib. — Sensation of crackling within the joints, 109 — Protrusion of bone by growth from the end of a stump, 110 — Wine in pneumonia, ib. — The frequency of hemiplegia, ib. —Ligature of the carotid for suspected aneurism of the ophthalmic artery, 136 — Circular amputation of the thigh, ib.—Good results of the amputations at St. George's Hospital, ib. — Connexion of cancer of the bladder with calculus; case and autopsy, 187 — Peculiarities of stone in the bladder, ib.—Fatty tumours encircling the neck, 188—Good effects of bleeding in acute lepra, ib. — Suspicious warty tumour on the end of the nose of a boy, removed by caustic, 212—Amputation of the leg, seventeen months after the performance of Syme's operation, for caries of the tarsus, ib.—Carcinoma of the male organ, ib.—Necrosis of the sternum, 230—Complete reduction of the head of the humerus after six months' dislocation, ib.—Well-marked syphilis in a child aged ten years, ib. — Exostosis on the anterior border of the scapula, near its inferior angle, 240 — Gonorrhœa with articular rheumatism, 265—Fracture of the os calcis of both feet, 266 — Lacerated wound of the thumb, extending into the carpo-metacarpal joint, ib. — An anomalous cystic tumour, 410 — Amputation of useless limbs, ib. — A poisoned hand, 411—Air in the pericardium, ib.—Treatment of simple fractures by the starched bandage, 434 —Tumour of the palm of the hand simulating a ganglion, ib. — The advantage of early attention to stone in the bladder, ib. — Removal of a fibroplastic tumour from the parotid region, 510—Spontaneous pelvic abscess, ib. — Chronic mammary abscess; successful treatment by strapping, &c., ib.—Bursting of an unsuspected cerebral abscess through the nose in a case of phthisis, 633 — Supernumerary first rib, ib. — Injury to the hand of a drayman, followed by erysipelas and sloughing, 634

Cod-liver oil incorporated with bread, 250
Cohen v. Davis and another, 641

LECTURES, &c.

BARNES, Dr. R.:
Introductory Lecture delivered at the Opening of the London Hospital Medical College, Session 1860-61, 325

BRINTON, Dr. W.:
A Lecture introductory to the Course of Physiology at St. Thomas's Hospital, 425, 450

BROWN-SÉQUARD, Dr. C. E.:
Lectures on the Diagnosis and Treatment of the Principal Forms of Paralysis of the Lower Extremities.
Lecture III., Part I. Diagnosis and Treatment of Paraplegia due to Myelitis, Meningitis, or Simple Congestion, 27—Part II. 77—Part III. Prognosis and Treatment of Myelitis, or Spinal Meningitis, and of Spinal Congestion, 155
Lecture IV., Part I. Symptoms and Treatment of various Forms of Paraplegia due to White Softening, Hæmorrhage, Tumours, &c.; General Conclusions of the Course, 229—Part II., 277—Part III., 451—Part IV. General Conclusions of the Course, 606

GAIRDNER, Dr. W. T.:
A Clinical Lecture on the Distinctions of Typhus and Enteric (Typhoid) Fever, delivered at the Royal Infirmary of Edinburgh, 53

GRAINGER, Mr. R. D.:
Introductory Lecture delivered at the Opening of St. Thomas's Hospital Medical College, Oct. 1, 1860, 361

HILTON, Mr. J.:
A Course of Lectures on Pain and the Therapeutic Influence of Mechanical and Physiological Rest in Accidents and Surgical Diseases, delivered in the theatre of the Royal College of Surgeons.
Lecture I., Part I., 103—Part II., 129
Lecture II., Part I., 153—Part II., 179
Lecture III., Part I., 205—Part II., 230
Lecture IV., Part I., 255—Part II., 303
Lecture V., Part I., 379—Part II., 401
Lecture VI., Part I., 403—Part II., 477

PAVY, Dr. F. W.:
Lettsomian Lectures on certain Points connected with Diabetes.
Lecture I., Part I., 503—Part II., 529
Lecture II., Part I., 555—Part II., 579
Lecture III., Part I., 607—Part II., 629

SKEY, Mr. F. C.:
Practical Clinical Remarks on Tetanus, delivered at St. Bartholomew's Hospital, 1

WILLSHIRE, Dr. W. H.:
Clinical Remarks upon a Case of Diabetes, delivered at Charing-cross Hospital, 404

Ledbury Union, the late election of medical officer to the, 633, 639
Lee, Mr. N. B. C., on a new method of reducing strangulated hernia, 548
Leeds House of Recovery, the office of apothecary at, 127, 176
Leg, amputation of the, seventeen months after the performance of Syme's operation, for caries of the tarsus, 212; and foot, on a case of elephantiasis of the, 611
Legacies, 74; to hospitals, 292
Legacy, a handsome, 242
Legions, the health of the, 90
Lemons, poisoning by eating, recovery, 508
Leperdrieu, M., death of, 120
Lepers and leper-houses, a universal history of, 90
Lepra, acute, good effects of bleeding in, 188
Leprosy, 120
Leroy d'Etiolles, death of, 220; the late, 447

——— organization and clamours from the camps, 242

——— surgeons, the, 439; aged, 252

Militia surgeons, 40, 625; and their grievances, 67

Milk, yellow ochre in, 43

Millar, Dr. W. S., new method of reducing strangulated hernia, 472

Millstone-maker's lung, a, 412

Miner, the health of the, 347

Mines, mortality of children in, 24

Minor, the difficulties of a, 47, 71; a, not a surgeon, 404

A MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

CHARING-CROSS HOSPITAL.—Conical cornea and impaired vision; nocturnal pain and morning lachrymation; Hancock's operation, followed by good results, 7—Permanent stricture of the urethra of long standing, with perineal fistula, treated by dilatation, 58—Hydatid tumour of the liver; puncture of the cyst, followed by suppuration and death, 211—Chronic alcoholism, and its effects on the nervous system; recovery, 237—Chronic alcoholism treated by suspension of the stimulus, ib.—Dislocation of the sternal end of the clavicle forwards, 265—Chronic dysentery successfully treated by the decoction of Indian bael, 385—Acute chorea, simulating symptoms of cerebral disease; complete recovery, 433—Chorea, unconnected with any other disease, cured by arsenic and splints to the arms, 434

GUY'S HOSPITAL.—Recurrence of adenocele after three successive removals; ultimate cure, 81—Sequel to a case of empyema, in which thoracentesis was performed, and drainage tube worn, 309—Chronic dysentery relieved by treatment, 334—Chronic dysentery, contracted in early life, in a man aged seventy-seven; relief, 335—Polypus of the rectum in a child, successfully removed, 410—Chorea for the third time, preceded on each occasion by a cutaneous eruption; recovery, 433—Chorea, arising from no specific cause; recovery, ib.—Calculus in the bladder for two years; lithotrity several times; successful result, 461—Calculus from the tonsil spontaneously ejected, 487—Fracture of the ribs and emphysema, with dislocation of the acromial end of the clavicle; recovery, 537—Obliteration of the superior vena cava; inflammation of the right auricle, with atheromatous deposits; fatal result, 585—Epithelial cancer of the tongue successfully excised, 633

KING'S COLLEGE HOSPITAL.—Aneurism of the abdominal aorta, producing erosion of the vertebræ; fatal result, 33—Obliterated urethra from injury; three fistulæ in perineo; satisfactory results from treatment, 57—Two cases of stricture of the urethra successfully treated by the urethrotome dilator, 58—Mammary glandular tumour commencing at fourteen years of age, 62—Invagination of five inches of the ileum into the cæcum and ascending colon; fatal result, ib.—Removal of necrosed bone, with subsequent excision of the knee-joint; recovery, 107—Wound of the wrist; death from tetanus, 181—Scirrhus of the breast; removal; death from tetanus, 182—Chronic empyema, with a fistulous opening into the chest; albuminuria; death from rapid œdema of the lung; autopsy, 338—Empyema and hydrothorax; thoracentesis four times; death, ib.—Foreign body in the vagina, producing a vesico-vaginal fistula; removal, 339—Loose cartilage in the knee-joint, producing repeated attacks of synovitis; direct removal; recovery with a stiff joint, 358—Poisoning by nitric acid; fatal result six months afterwards, 508

LONDON HOSPITAL.—Case of extra-uterine gestation, in which gastrotomy was performed six months after the death of a nearly full-grown fœtus, 32—Mammary glandular and aero-cystic tumour; amputation of the breast, 81—Acute idiopathic tetanus, terminating fatally in sixty-eight hours, 163—Valvular rupture of a dilated aorta, extensively affected with atheromatous disease; hæmorrhage into the pericardium; death, 583—Rupture of the jejunum from a kick on a hernial sac; death from peritonitis in thirty hours, 610

MIDDLESEX HOSPITAL.—Acute traumatic tetanus from wound of the foot; recovery under the use of tincture of aconite, 162—Compound dislocation of the elbow—the radius and ulna thrown directly outwards; reduction, with good use of the joint, 260—Very large fibro-cellular tumour of the scalp of thirty years' growth; successful removal, 409—Severe injuries to the right hand, followed by subacute tetanus; recovery, 561—Perforation of the ileum by a piece of bone; acute peritonitis with symptoms simulating strangulated femoral hernia, 611—Warty growths around the vagina and anus of a pregnant woman; removal, 632

ROYAL FREE HOSPITAL.—Strumous disease of the knee-joint; excision; recovery with a useful limb, 109—Extensive caries of the right knee-joint; excision; recovery, with firm anchylosis in two months, ib.—Epistaxis, giving rise to hæmitemesis, the hæmorrhage proceeding almost to fatal syncope, 135

ROYAL WESTMINSTER OPHTHALMIC HOSPITAL.—Acute glaucoma, showing the value of Hancock's operation of division of the ciliary muscle, 7

ST. BARTHOLOMEW'S HOSPITAL.—Extensive hæmaturia, from suspected disease of the kidneys; recovery, 134—Reduction of compound dislocation of the ankle-joint; death from tetanus, 162—Chorea following rheumatism; cure; subsequent attack of typhoid fever, proving fatal by peritonitis, 433—Calculus in the bladder; lithotrity; the stone crushed in five sittings, without chloroform; good recovery, 459—Two cases of poisoning by eating lemons; recovery, 508

ST. GEORGE'S HOSPITAL.—Case of extensive injury to the hand; recovery, with almost perfect use; an attack of scarlet fever in the interval, 187—Vaccination, followed by inflammation and abscess of the arm on the receipt of a blow upon the scab; fatal pyæmia, 263—Empyema and pulmonary abscess consequent upon acute pleuro-pneumonia; fatal result; autopsy, 306—Empyema; malignant disease of the mediastinum involving the right lung; thoracentesis; fatal result, ib.—Unsuspected abscess of the prostate gland, in a case of gonorrhœa; fatal result, 408—Diffuse cellular inflammation of the neck, extending to the mouth, following a carbuncular swelling of the chin; fatal pyæmia, 457—Poisoning by an ounce of oxalic acid; fatal result on the fifth day, 509—Fracture of the ribs, sternum, and lower jaw, with bleeding and serous discharge from the temporo-maxillary articulation through the ear, 536—Fracture of the ribs and all the lumbar vertebræ; laceration of the pleuræ, theca vertebralis, and spleen, 537—Extensive wound of the hand, followed by fatal tetanus, 561—Lacerated wound of the back part of the hand, followed by fatal tetanus, ib.—Aneurism of the aorta, and general disease of the heart; fatty degeneration of the latter; fatal result, 584—Encephaloid tumours on both sides of the neck; fatal result, 633

ST. MARY'S HOSPITAL.—Ascites originating without any recognised cause, and yielding to the employment of tonics, 6—Calculus in the bladder, treated by lithotomy, conjoined with lithotrity, 185—Three cases of delirium tremens, treated without stimulants; fatal result in two, 238—Stone in the bladder; lithotomy; inflammation at the neck of the bladder; complete recovery, 339—Epithelial cancer invading the larynx and part of the pharynx, with destruction of the vocal cords; tracheotomy; death from pneumonia, 485

ST. THOMAS'S HOSPITAL.—Six cases of excision of the knee-joint, performed in 1859, followed by recovery, in five, 108 — Suppurating hydatid tumour of the liver, simulating an empyema; evacuation of matter by the trocar; recovery, 211—Grazing of the heel, followed by tetanus; recovery, 559—Ruptured popliteal aneurism, with gangrene of the leg; amputation; tetanus; fatal result, 561

UNIVERSITY COLLEGE HOSPITAL.—Sequel to the case of embolon in the cerebral arteries which had produced hemiplegia, the result of rheumatic endocarditis, 33—Injury to the left kidney, from contusion of the abdomen and thorax; hæmaturia and collapse; recovery, 135—A fish-bone lodged in the œsophagus, perforating the diaphragm and heart, resulting in death, 186—Hydatid tumour of the liver; puncture of the cyst, followed by suppuration, 210—History of a child five years old, brought in with symptoms of poisoning by rum; recovery, 239—Acute inflammatory œdema of the scrotum, followed by extensive sloughing of the integuments, pyæmia, and death, 264—Aneurism of the left femoral artery, treated by compression; consolidation of the tumour within fifteen weeks, 358—Acute dysentery, with typhoid febrile symptoms and delirium; recovery, 388—Old disease of the bladder; calculus; lithotrity successful, 460—Small calculus in the bladder of a boy; lithotrity successful, at a single sitting, ib. —Fracture of the second rib in a child; general emphysema of the entire body; fatal result, 539

WESTMINSTER HOSPITAL.—Injury to the jejunum from a contusion; subsequent rupture and fatal peritonitis on the fifth day, 609

Missionary, lay medical, to Africa, 178
Mnemonics, Dr. Pick's lecture on, 455
